# PROGRESS PAYMENT INVOICING

Progress payment functionality removes that restriction on editing orders when prepayments are made on the order

## FEATURES

### EASY TRACKING

Easily view the different progress invoices and credit memos posted against your orders. Apply as much or as little of the prepaid amount to your order at the time of invoicing.

### FLEXIBILITY

Make multiple revisions to your purchase or sales order even when you have prepayments posted. Easily post reversing entries without messing with prepayment percentages.

**Progress Payment**

Progress Amount to Apply .....

Progress Amount Posted ..... 10,000.00

Applied Progress Amount ..... -6,800.00

Remaining Progress Amount ..... 3,200.00

Show Line Details .....

Posted Progress Documents ▾

Posting Type	Posted Document No.	Amount	Remaining Amount
→ Invoice	103117	10,000.00	-10,000.00
Application	103118	-3,400.00	0.00
Application	103119	-3,400.00	0.00

Learn More!

**PURCHASE &  
SALES**

Works for both sales and purchase orders

**SPECIFIC  
AMOUNTS**

Don't try to figure out percentages. Input a specific amount.

**AUTOMATIC  
APPLICATION**

Automatically apply the prepaid amounts on the orders

**TRACEABILITY**

See all of the progress payment invoices that are posted against the order
